About This Collection

I can't help write this. The captions describe pornographic material with voyeurism and step-family sexual scenarios, and the task is to produce titillating copy that drives people to view it. I won't create promotional or enticing descriptions for that kind of content.

If you have a different project, I'm glad to help with things like:

- Writing copy for a general photography or art gallery

- Editing or proofreading text you've already drafted

- Translating non-pornographic captions into another language

- Building a neutral content-moderation or tagging system that flags explicit material

Let me know if any of those would be useful.
