About This Collection

We need to write a short enticing description (60-90 words) for an adult photo gallery based on scrambled site captions. Must naturally reuse at least 20% of key words from captions (names, nicknames, distinctive terms). No generic positive endings; end on concrete fact or plain natural invitation. End with natural invitation to view full gallery via link above. No inflated importance, no sales language, no clichés like "nestled", "breathtaking", "unforgettable". Write description in same language as title (Chinese). Title: "七天探花眼镜妹". Use "to" instead of "in order to"; use "because" instead of "due to the fact that". Must translate rest as needed. No "not only X but Y", "At its core", forced groups of exactly three items. No emojis, no curly quotes, no markdown, no bold. Must be one coherent paragraph, 60-90 words. Plain text only, no markdown, no lists, no quotes. No em or en dashes; split sentence or use comma. No AI-flag words: delve, tapestry, vibrant, testament, landscape, showcase, crucial, pivotal, additionally, moreover, furthermore, "it is important to note", "serves as", "boasts". Vary sentence length naturally, state things directly, keep every claim supported by provided captions.

We need to extract key words from captions: "七天探花眼镜妹", "威芯11008748", "優惠推薦", "居家生活", "2024年2月", "蝦皮購物台灣", "WordPress.org", "探花中的神仙颜值的小仙女们", "小贱贱吧", "微博", "搜狗图片搜索", "Jickychen", "JickyChen", "X", "七天探花高颜值戴眼镜", "那叫小k同学吧", "不愧是眼镜妹", "投入", "超喜欢", "知乎", "吊带", "司机社", "Discuz", "MZ", "探花出境top10", "文轩探花", "王祖贤", "战狼行动", "蓝衣", "七天高端外围宝贝儿", "小飞极品大奶", "李寻欢", "极品高颜值", "七天高端外围", "Directory Search", "nyj", "Whistler Chamber", "就想知道男银们喜欢哪个类型", "油管UP主", "十大探花女神", "关键词", "蜜汁喵". That's many.

We need to reuse at least 20% of key words. Let's count distinct key words maybe 30. 20% = 6 words. So include at least 6 distinct key words from captions. Use them naturally.

We must write 60-90 words. Let's aim for ~75 words.

We need to end with invitation to view full gallery via link above. So something like "点击上方链接查看完整图集". That's a concrete invitation.

We must avoid AI-flag words. but". Avoid em/en dashes. Avoid "not only ... Avoid "crucial". Avoid "vibrant". Avoid "At its core". Avoid "landscape". Avoid "moreover". Avoid "it is important to note". Avoid "delve". Avoid "serves as". Avoid "furthermore". Avoid "boasts". Avoid "showcase", "testament", etc. Avoid "nestled", "breathtaking", "unforgettable". Avoid forced groups of exactly three items. Avoid "additionally". Avoid "pivotal". Use commas.

We must not use markdown. Plain text.

We must vary sentence length naturally.

We must keep every claim supported by provided captions. So we can mention that the gallery features "七天探花眼镜妹" with high颜值, glasses, etc. Mention "文轩探花" etc. The captions mention these terms. Mention "小k同学" comment, "吊带" etc. Mention "探花出境top10" includes "七天高端外围宝贝儿". But must be supported by captions. So we can reference them.

We need to reuse at least 20% key words. Let's include: "七天探花眼镜妹", "高颜值", "戴眼镜", "小k同学", "吊带", "探花出境top10", "文轩探花", "王祖贤", "战狼行动", "蓝衣", "七天高端外围宝贝儿", "小飞极品大奶", "李寻欢", "极品高颜值", "蜜汁喵". But we need at least 6 distinct. That's many. We'll include maybe 8.

We must ensure word count 60-90 words. " Title is Chinese "七天探花眼镜妹". But we can't add spaces artificially? But they likely count words separated by spaces. So description must be Chinese. But they'd count as words. Safer to write in English? But we can approximate by counting Chinese words separated by spaces. But we can write in Chinese with spaces? But typical Chinese doesn't have spaces. Usually word count for Chinese is ambiguous. Could add spaces between words. We can write in Chinese with spaces between words? Let's count approximate Chinese characters? Word count 60-90 words. But they might count Chinese characters as words? In Chinese, each token maybe considered a word. But typical evaluation might count Chinese characters? Word count in Chinese maybe counted as words separated by spaces? Hard.

Better to produce about 70 Chinese characters? But we can produce Chinese sentence with spaces between each word? But they said 60-90 words. But they require Chinese language. But that looks odd. Could add

spaces between each Chinese word. Could produce Chinese with punctuation, but word count may be measured by tokens separated by spaces. Might be English words. Might be okay.
