# About This Collection

We need to write a short description (60-90 words) for an adult photo gallery based on scrambled site captions. We'll aim for ~70 Chinese characters (maybe 70-80). Must be in same language as gallery title: "原神本子" which is Chinese (Simplified). Usually words count in Chinese is ambiguous; but we can aim for about 70 Chinese characters? Must reuse at least 20% of key words from captions (names, nicknames, distinctive terms). Must be one coherent paragraph, 60-90 words (Chinese characters count? So description must be in Chinese. Actually words in Chinese maybe counted as characters. Captions contain: Genshin Impact, Yae Miko, purple kitsune, Pin, 原 神, Avalanche of FF39, KOKOMI, ミ ニ キ ャ ラ 描 き 方, 神 原, 多 忙, Ke Qing, 1920×1080, Everyday good pictures, Harajin Kawabayashi Fukuri Shibibuya Figure book (Multi-figure) Illustration 32, Daily Good Picture, Hara Shijin Kawabayashi Fukutsu Fukutoshi, Picture of the day, Hara-kami homage to Shibuya Shibuya Fukutoshi (Nov. com s 1V.

We need to reuse at least 20% of key words. "八重神子" appears as "八重神子". Actually "Kokomi" is "珊瑚宫心海". "神里绫华". But we have "KOKOMI". Also "神里绫华" (Kamisato Ayaka). "原神" appears many times. "原 神" appears. "雷电" appears. "雷电将军" (Raiden Shogun). Let's pick key words: 原神, 八重神子 (Yae Miko), 可莉? "原神本子" is title. We'll incorporate some.

We must not use AI-flag words: delve, tapestry, vibrant, testament, landscape, showcase, crucial, pivotal, additionally, moreover, furthermore, "it is important to note", "serves as", "boasts". Also no em/en dashes. No inflated importance, no sales language, no clichés like "nestled", "breathtaking", "unforgettable". No generic positive endings; end on a concrete fact or a plain natural invitation. Avoid those. No forced groups of exactly three items. Use "to" instead of "in order to". No "not only X but Y". Use commas. Use "because" instead of "due to the fact that". No emojis, no curly quotes, no markdown, no bold. No "At its core". Plain text only.

We need to end with a natural invitation to view the full gallery via the link above. So something like "请点击上方链接查看完整图库。" That's a plain invitation.

We need 60-90 words. But we have no spaces. But we can approximate 70 Chinese characters. In Chinese, words count maybe each token separated by spaces? Usually they count Chinese characters as words? Let's aim for about 80 Chinese characters.

We must reuse at least 20% of key words. We'll reuse at least 2-3 of them. 20% of maybe 10 = 2. We'll include 原神, 八重神子, 神里绫华, 雷电将军. So include at least 2 key words. Let's count key words: maybe 10 distinct key words: 原神, 八重神子, 雷电将军, 神里绫华, 珊瑚宫心海 (Kokomi), 原神本子? But title not needed. That's 4.

Now write a paragraph in Chinese, 60-90 words (maybe 70 Chinese characters). Let's count characters.

Potential paragraph: "这组原神本子收录了八重神子的紫色狐狸形态、雷电将军的霸气瞬间以及神里绫华的优雅Cosplay，画面均为1920×1080高清大图，部分来自日常好图与画师原神志的合集。点击上方链接即可查看完整图库。"

Count characters: Let's count Chinese characters (including punctuation). "这组原神本子收录了八重神子的紫色狐狸形态、雷电将军的霸气瞬间以及神里绫华的优雅Cosplay，画面均为1920×1080高清大图，部分来自日常好图与画师原神志的合集。点击上方链接即可查看完整图库。"

Count: 这(1)组2原3神4本5子6收7录8了9八10重11神12子13的14紫15色16狐17狸18形19态20、21雷22电23将24军25的26霸27气28瞬29间30以31及32神33里34绫35华36的37优38雅39C40o41s42p43l44a45y46，47画48面49均50为51 1? Actually we counted roughly 70? But let's count as tokens. Actually "1920×1080" counts as characters maybe 8? But approximate. Continue: 高1清2大3图4，5部6分7来8自9日10常11好12图13与14画15师16原17神18志19的20合21集22。23点24击25上26方27链28接29即30可31查32看33完34整35图36库37。 That's about 37 Chinese characters after punctuation? Let's count more precisely.

But the requirement: 60-90 words. But the word count may be evaluated by the system automatically counting words separated by whitespace. But they require same language as title (Chinese). But typical Chinese doesn't use spaces. That would satisfy word count. However they ask to write in same language as title (Chinese). But

we could produce Chinese words separated by spaces (like each Chinese word separated by space). But we cannot add spaces. But typical description would be a paragraph with spaces maybe not needed. But writing Chinese with spaces between each word would look weird. Could add spaces between words to count words. But we have no spaces. Usually words count in English. But the instruction: "short, enticing description (60-90 words)". But we are writing in Chinese. " It doesn't forbid spaces. So we need to produce 60-90 words separated by spaces. But safer to produce about 80 Chinese characters (maybe 80 words). So they probably count Chinese words (maybe each Chinese token separated by spaces). Might be considered as Chinese words (like each term). But we can artificially separate with spaces to count words. But we can produce English words? But they'd likely count words by whitespace. In Chinese, words maybe considered as tokens separated by spaces? But it's ambiguous.

Better approach: Write description in Chinese but with spaces between each Chinese "word" (like each token). But word count may be measured in Chinese characters? So description must be Chinese. " Title is Chinese. But we can produce a description in Chinese but include about 70 English words? But that may be unnatural. But they'd be in English, not same language. Hmm.
