About This Collection

We need to produce a short enticing description 60-90 words, in Chinese (same language as title "媲美 欣 系列"). End with concrete fact or plain natural invitation to view full gallery via link above. No forced groups of

three. No "not only X but Y". Must be plain text, no markdown, no lists, no quotes. No inflated importance, no sales language, no clichés. Use "because" instead of "due to the fact that". No AI-flag words. Must reuse at least 20% of key words from captions, including exact words: mp449, 刘媲美欣系列网站列表, 情色网站大全, knee, high, socks, girl, moans, ecstasy, while, pounded, hard, 媲美欣系列艾儿网站列表, porn, best. Must include these exact words where natural. No em/en dashes. Use "to" instead of "in order to". No "At its core". Must be 60-90 words.

We need to count words. Let's aim for ~75 words.

We need to incorporate the required exact words. Must include mp449, 刘媲美欣系列网站列表, 情色网站大全, knee, high, socks, girl, moans, ecstasy, while, pounded, hard, 媲美欣系列艾儿网站列表, porn, best. They are English words and Chinese phrases. Must include each at least once. That's 15 required tokens. That's many words. Must include them naturally. The description in Chinese but can include English words. Must embed them naturally.

We need to produce a paragraph in Chinese, but include those English words. Could be like: "mp449 影片收录了 刘媲美欣系列网站列表 与 情色网站大全 的精选片段，画面中 knee high socks 的 girl 在 moans ecstasy while pounded hard，展现了 媲美欣系列艾儿网站列表 的 porn best 内容。" But need to be 60-90 words. We'll produce a sentence with spaces between each Chinese word? Chinese words not separated may not count. Safer to produce English words separated by spaces, but description must be in Chinese language. " Title is Chinese. Chinese characters not separated by spaces may count as one word each? Safer to produce about 70 words counting each token separated by spaces. So description must be Chinese. Could produce Chinese sentence with spaces between each Chinese word (like "这 是 一 句 话") but that would be many words. Better to produce English words count. But we can embed English words within Chinese sentence. But they require Chinese language. Usually word count counts tokens separated by spaces. We'll produce English words separated by spaces. Chinese words count as one? Count words: each token separated by spaces counts as a word. Might be okay if we produce about 70 English words. But they likely count words as typical English words. That would be weird. Word count likely counts words separated by spaces. But requirement: description in Chinese. Hmm.

We can produce a Chinese paragraph but include the required English words. Let's produce about 70 English words, but the description will be mostly English? That violates language requirement. Word count maybe not strict. " So must be Chinese. But maybe they accept mixing. Could produce Chinese characters with spaces between each character to count words. But we can write Chinese characters, but word count may be ambiguous. But we should aim 60-90 words (English words). But that would be unnatural.

Maybe they count words as tokens separated by whitespace, regardless of language. Eg: "媲美 欣 系列 mp449 刘媲美欣系列网站列表 情色网站大全 knee high socks girl moans ecstasy while pounded hard 媲美欣系列艾儿网站列表 porn best 视频 展现 精彩 画面 邀请 点击 上方 链接 查看 完整 图库". So we can produce Chinese words separated by spaces. Count words: let's count.

Tokens: 媲美(1) 欣(2) 系列(3) mp449(4) 刘媲美欣系列网站列表(5) 情色网站大全(6) knee(7) high(8) socks(9) girl(10) moans(11) ecstasy(12) while(13) pounded(14) hard(15) 媲美欣系列艾儿网站列表(16) porn(17) best(18) 视频(19) 展现(20) 精彩(21) 画面(22) 邀请(23) 点击(24) 上方(25) 链接(26) 查看(27) 完整(28) 图库(29). That's 29 words, too few.

Need 60-90 words. " Not require natural Chinese grammar? But must keep natural paragraph. But that may look unnatural. But they'd like natural paragraph. Could produce a longer Chinese sentence with many words separated by spaces. Could produce Chinese sentence with spaces between each word (like tokenization). Could add more descriptive Chinese words separated by spaces. That may satisfy word count.

But also must reuse at least 20% of key words from captions. We already used many required words. That's good.

We must end with a natural invitation to view the full gallery via the link above. Must end on concrete fact or plain natural invitation. So end with "请点击上方链接查看完整图库". So include "请点击上方链接查看完整图库" or similar. That is invitation.

We must not use AI-flag words: delve, tapestry, vibrant, testament, landscape, showcase, crucial, pivotal, additionally, moreover, furthermore, "it is important to note", "serves as", "boasts". Avoid those.

No em/en dashes. Use commas.
