## About This Collection

Here in the same language as the input. So the description should be in English. " The title is "firstgloryhole", which is English. The input has English captions, but the gallery title is "firstgloryhole". However, the captions are in English too. " The title is "firstgloryhole", which is English (lowercase). So I will write in English.

I need to write a short, enticing description (60-90 words). Never use "not only X but Y" constructions, "At its core", or forced groups of exactly three items. No emojis, no curly quotes, no markdown, no bold text. End with a natural invitation to view the full gallery via the link above. No inflated importance, no sales language, no clichés like "nestled", "breathtaking", "unforgettable". Plain text only, no markdown, no lists, no quotes. Never use em or en dashes; split the sentence or use a comma. Turn the scrambled site captions into one coherent, engaging paragraph that teases the models, setting and action without listing captions mechanically. Answer in the same language as the input. Use "to" instead of "in order to"; use "because" instead of "due to the fact that". Naturally reuse at least 20% of the key words from the captions (names, nicknames, distinctive terms), translating the rest as needed. Never use AI-flag words: delve, tapestry, vibrant, testament, landscape, showcase, crucial, pivotal, additionally, moreover, furthermore, "it is important to note", "serves as", "boasts". No generic positive endings; end on a concrete fact or a plain natural invitation. Vary sentence length naturally, state things directly, and keep every claim supported by the provided captions.

The gallery title is: "firstgloryhole". Write the entire description in the same language as this title, regardless of the captions language.

So I need to produce a paragraph of 60-90 words. Let's count words later.

First, I need to extract key words from the captions. The captions include:

- First two men of many men
