About This Collection

We need to produce a description in the same language as the title: title is "agile-ежедневник". The instruction says never use em or en dashes; colon is fine. So language is Russian. Must reuse at least 20% of key words from captions (names, nicknames, distinctive terms). Also no bullet lists. Colon is allowed? Actually "—" is an em dash, which we must avoid. Also no AI-flag words: delve, tapestry, vibrant, testament, landscape, showcase, crucial, pivotal, additionally, moreover, furthermore, "it is important to note", "serves as", "boasts". Also no inflated importance, no sales language, no clichés like "nestled", "breathtaking", "unforgettable". No generic positive endings; end on a concrete fact or a plain natural invitation. Actually "agile-ежедневник" is Russian with English word "agile". Probably safe to use regular hyphen-minus. That's Russian? So we should not use em or en dashes; we can use hyphens (dash) but not em dash. So we must avoid double quotes and single quotes. Also no colon? So we need to include some words from captions like "Катерина Ленгольд", "Космос", "Agile", "ежедневник", "личного развития", maybe ISBN numbers? Also no quotes. So we need to write description in Russian, plain text, no markdown, no quotes, no emojis, no dashes (em or en), no "—"? We can reuse some.

We need to write 60-90 words. Must end with a natural invitation to view the full gallery via the link above. Colon is allowed but we can avoid to be safe. Must not use "—". Must not use colon? Must be one coherent paragraph. Must not use em dash. Must not use quotes. " That is plain. No list. Use commas and periods.

We need to vary sentence length naturally, state things directly, keep every claim supported by the provided captions. ru, МИФ, OZON, Meloman, Книгоград, Marwin, Мегамаркет), mentions ISBN numbers, mentions 2020, 2022, etc. So we cannot claim something not in captions. Must ensure claims are supported by captions.

We need to reuse at least 20% of key words. ru", "МИФ", "OZON", "Meloman", "Книгоград", "Marwin", "Мегамаркет". Also "планер недатированный". Also "комплект из 3 блокнотов". Also "Мой новый дом 🏡🌊" but we cannot use emojis. So we can ignore emojis.

We need to reuse at least 20% of these key words. So we need to include at least 6 distinct key words from captions. If we have maybe 30 key words, 20% is 6 words. We'll include many.

We must avoid AI-flag words. We need to avoid exactly three items. Also avoid "because" vs "due to the fact that" - we can use "because". The rule says "no forced groups of exactly three items". So we can have two items or four or more but not exactly three. So we cannot have three items in a list like "A, B, and C". Avoid "At its core". Use two or more than three? Also avoid "not only X but Y". Safer to avoid enumerations of three items. Also avoid "to" vs "in order to" - we must use "to". Avoid forced groups of exactly three items. Safer to avoid enumerations altogether, just use sentences.

We must not use em or en dashes. Use hyphen-minus for compound words like "черно-зеленый" is okay because it's a hyphen, not an en dash. So we must not use "—". That's fine.

We must not use quotes. So no " " or ‘ ’.

We must not use markdown. So plain text.

We need to end with a plain natural invitation to view the full gallery via the link above. That's a concrete fact? " That ends with a period. It's an invitation. It's okay.

We must not use generic positive endings like "Don't miss out!" etc. So just invitation.

Now produce 60-90 words. Let's craft around 75 words.
