About This Collection

We need to write a short enticing description (60-90 words) for an adult photo gallery based on scrambled site captions provided. The captions are about CME credits, medical education, etc. However the gallery title is "cme credits courses". " Title is English. So description in English.

We must produce a paragraph 60-90 words, enticing description for an adult photo gallery? At least 20% of key words. " That seems contradictory: adult photo gallery but captions are about CME credits. So we need to incorporate words like "CME", "Credits", "Courses", "Medmastery", "NIH", "Echo", "Cardioserv", "Chicago Mercantile Exchange", "Ripple XRP", "Continuing Medical Education", etc. But the content is about CME credits courses. We'll include "CME", "Credits", "Courses", "Medmastery", "NIH", "Echo", "Cardioserv", "Chicago Mercantile Exchange". However captions are about CME credits, not adult content. Let's count words: description 60-90 words. However we must follow instructions: produce description based on captions, but it's for an adult photo gallery. Probably they want a description that teases models, setting, action, but using the captions. 20% of key words from captions: we need to include maybe 5-6 distinct key terms. But we must follow the constraints: reuse at least 20% of key words from captions (names, nicknames, distinctive terms). That's many.

We must not use AI-flag words list. Avoid those. No markdown, no lists, no quotes. Plain text.

End with a natural invitation to view the full gallery via the link above. So end with something like "View the full gallery via the link above."

We must not use em or en dashes. Use commas or split sentences.

No "not only X but Y", "At its core", forced groups of exactly three items. Avoid.

Use "to" instead of "in order to". Use "because" instead of "due to the fact that". No inflated importance, no sales language, no clichés like "nestled", "breathtaking", "unforgettable". No generic positive endings; end on concrete fact or plain natural invitation.

No emojis, no curly quotes, no markdown, no bold.

Vary sentence length naturally, state things directly, keep every claim supported by provided captions.

We need to ensure description is 60-90 words. Let's aim for ~75 words.

We need to incorporate at least 20% of key words. Let's count key words: maybe 10 distinct key words. 20% = 2 words. But better to include more.

We'll write a paragraph describing a gallery of CME credit courses? But it's adult photo gallery. Hmm. " So English.
